## Who is who?

If you are confused on who is venge, screenshots below this will show every alt he had when the other document was made. He made new accounts, mainly using "Asateur" and "zxzpandazxz" *recently*. He also used 1uns. *You can also check out the recording here.* [https://cdn.discordapp.com/attachments/830727005451714580/1184904159783309482/MNKA03Y.mp4?ex=66a7233e&is=66a5d1be&hm=db928a948b89a7e19c688f2023cd8801d64b460bc3d\\_abbe122927867d50baaa2&](https://cdn.discordapp.com/attachments/830727005451714580/1184904159783309482/MNKA03Y.mp4?ex=66a7233e&is=66a5d1be&hm=db928a948b89a7e19c688f2023cd8801d64b460bc3d_abbe122927867d50baaa2&)

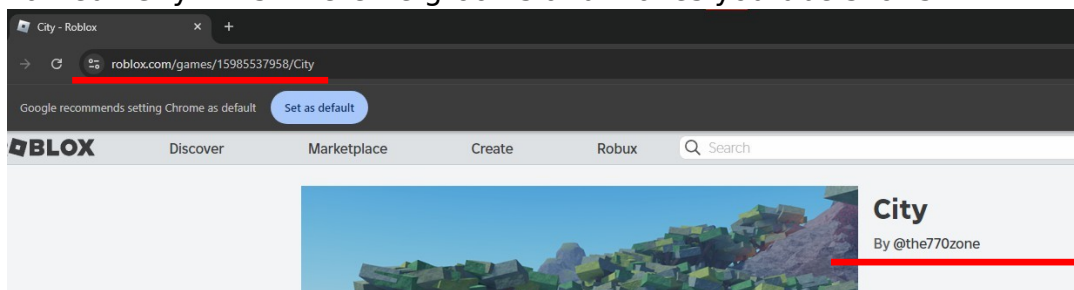

Red underline shows that he owned all of these accounts because his main account was also saved.

## What are the logs from the game?

Logs from the game usually show "Place 15985537958" on the name. This is Venge's game, named "City". It's where he grooms and makes youtube shorts.

# Before reading the logs

Don't confuse the people commenting on the logs with the people ingame using the following examples.
